

## **Obtaining MSDSs (Material Safety Data Sheets)**

There are multiple ways in which to obtain MSDSs:

1. Go to: <http://msds.pdc.cornell.edu/msdssrch.asp>, and follow the directions for obtaining an MSDS.
2. Go to the website for the product's manufacturer. Many times, the manufacturer may have the MSDS on the website.
3. Call the manufacturer's phone number listed on the product, and request that an MSDS for a particular product be mailed, emailed, or faxed to you.
